EXECUTIVEOS · FOR COMPANIES

Most leaders use AI one chat at a time. Yours won't have to.

AT A GLANCE

WHAT IT IS

One leader's AI, built for them inside the tools your company already approves. It knows their story, their voice and the work in front of them.

TIME

A scope agreed in writing before we start. Each one is built around that leader's week.

INVESTMENT

Investment will be shared in our 20-minute conversation.

WHAT YOU GET

Each leader gets their own ExecutiveOS. You get a readout.

WHY NOW

Waiting has a cost. Every week you wait costs the same hours.

FOR A GROUP OF LEADERS

Sponsor a cohort

A group of your leaders. Each one with their own ExecutiveOS. I work with every leader one to one, so each is built around that leader's week.

- Their own ExecutiveOS, inside your approved AI tools
- Built around what takes too much of their time
- Tested before they rely on it
- You get a readout: counts and averages, never names or quotes

Smaller groups see the best success.

OR

Start with one leader

One leader, one ExecutiveOS. For the leader with the most on their plate, or the one everyone quietly follows.

It's also an output of ***Known For*** Leadership Collective, and part of 1:1 Executive Advisory, alongside their ***Known For*** Story, their LinkedIn and the ***Known For*** Scorecard.

WHAT IT IS

Four parts. All of them theirs.

- **Where they ask.** Copilot, Claude, Gemini or ChatGPT. Whichever your company approves.
- **What it remembers.** Who they are, how they lead, how they sound, and what they've already decided.
- **What it can see.** Their files, calendar and email, as far as your company's policy allows.
- **What it does without being asked twice.** The brief before the board meeting. The first draft of the town hall. The Monday summary.

HOW I BUILD IT

They set the direction. It does the first pass.

1. **We find the friction.** Each leader shows me what takes too much of their time.
2. **They set the priorities.** Their list, in their order.
3. **I build it for them.** Inside the AI tools your company already approves.
4. **We test it before they rely on it.** Then it's theirs to run.

Every word is still theirs. If they wouldn't say it, we change it.

YOUR POLICIES COME FIRST

- It runs on what you already pay for. No new software to buy from me.
- It sees what your policy allows. Approved tools only.
- What's said stays with me. You see counts and averages.

Angela Gallitano · The Gallitano Studio

One of three leaders of LinkedIn's global Rock Your Profile program. Then Gartner, working with CHROs, CIOs and their executive teams. Today, Salesforce Enterprise AI. I build with agentic AI daily, and I teach leaders to do the same. 350+ rooms since 2020. 125+ executives one to one. Every engagement is strictly guarded.
